UPDATE (9/17/20) – Presentation has been attached  
UPDATE (9/14/20) – Agenda with ZOOM information has been included

~~~~~  
~~~~~

I am pleased to inform you we have scheduled the Emission Reduction Credit Program Public Advisory Workgroup kickoff meeting for Friday, September 18<sup>th</sup> from 9 to 10 am. Thanks to the flexibility of a few members, we are expecting that all members of the workgroup and agency partners will be able to attend and participate in the kickoff meeting. The meeting will be held virtually via Zoom webinar. We will send out an agenda for the meeting and the Zoom details early next week. The meeting will also be open to the public and we will post participation details on the District website early next week as well.

Once again, thank you for your interest and commitment to participate on the workgroup. This group will provide for meaningful public engagement and will be critical in assisting the District as we develop potential enhancements to the District's emission reduction credit and federal offset equivalency programs aimed at ensuring an effective permitting program that protects public health and supports economic growth and development in the Valley.
